

Fresh ladies winter looks

Warmth and Earthiness

The cooler weather is setting in and with it some hot trends to look out for in store.

There is a big focus on voluminous sleeves in either dresses, knits or tops. Warm earthy colours like Rust, strong olive, and statement gold are right on trend and look great matched back with natural tones or colour blocked with similar colours.

Cord, rib, waffle and knits are great textures to play with to support that warmth and earthy look.
